Cover letter about my document "Arrest warrants"

Regarding with my document which I have named "Arrest warrants", I have to mention that I had sent my document "Report" to some destinations and I had requested their answers about what I write in my document "Report" and after having was waiting for some days and because I had no one answer from no one destination where had sent the document, I had written and I had sent them, to each destination their indictments which I have attached to this document and which indictments I support always with my true word their validity, the destinations of my document "Report" where in continue I had sent and their indictments are:

1. To the secretary general of nato (then was the Jens Stoltenberg).
2. To president of european parliament and to President of the european commission
3. To High Representative of UN for Disarmament Affairs
4. To WWF President

From the destinations is obviously that from the May 2024, (and although me did not know then that their illegal, nazi, criminal, nazi criminal ways parasitizing from me, their machines were always and are their echelon machines) all the fourth nazi, illegal, criminal, parasitic (echelon this time) reich formation and all the nazi criminal parasitic echelon conspiracy have received from me their indictments which I have attached on my document "Arrest warrants" which I have sent to the General Prosecutor of the ICC, requested me from him to issue the Arrest warrants against all the guilty regarding to the whole issue, I had not none answer from the ICC, and I am not wait no response from there (the ICC), but my request to issue the Arrest warrants against all the guilty about the whole issue, is always valid and in timeless power, and I support my request with all my documents and with all my submitted lawsuits, and with all my posts and comments on my website.
