

Letter by Dimitris Mantzanas

Cover letter for my document "information note"

Regarding with my document "information note", I have to mention that was, and always will be (I never abandon no one of my documents and no one of my lawsuits) an attempt by me to address to all of humanity, to parliaments of countries but also and to peoples and to national and international organizations (to all levels of every society) and to inform for the content of the document and I wanted from then to have built my website, but I had not the money (as I have already mention in athens where I live, I live and working under very difficult conditions), I had not no one answer from nowhere then, but I did not disappointed, my fight against all of them has for me a sanctuary character (and of course I have deep believe to God and to Jesus), that does not allow me to ever be disappointed or to ever be defeated by anything, and the only thing I can really do, and that do, is to move always indomitable even alone, with all my strengths, always against the fourth nazi, illegal, criminal, parasitic (echelon this time) reich formation and against their illegal, nazi criminal ways parasitizing from me, their echelon machines (without to count at all the many nazi crimes which all of them from their nazi, criminally insane, harmful parasitic echelon machine basements they continuously perpetrating against me), and me against and the whole the nazi, criminal, parasitic echelon conspiracy. The last time period where I worked as taxi driver in athens, I managed to gather some money and built and my website through which I am addressing to all who are out of the fourth illegal, nazi, criminal, parasitic (echelon this time) reich formation and out of the whole nazi criminal parasitic echelon conspiracy, and of course I want prosecutorial and judicial authorities as of course and governmental authorities of all the countries of South America, Africa and wider Asia to examine all my documents and all my posts and to consider and to examine and all my lawsuits and the pending prosecutorial case from my lawsuit with number ABM E 2024 1752 with case number {EF69-2024/501 E24-1752, which (from 2024) is in the process of being assigned to a prosecutor, in the office 104 of the Athens prosecutor's office} and they with all the force of their legal states constitutions and with the ways judge most properly to move against the illegal, nazi criminally insane, harmful, parasitic echelon machines basements and against all the other guilty, and without the prosecutorial the judicial and governmental authorities to be afraid neither even at the least the crimes which the fourth nazi, illegal, criminal, parasitic (echelon this time) reich formation with their illegal, nazi criminal ways parasitizing from me, their echelon machines they so many

years perpetrate and will perpetrate against me and without afraid neither even to at least the whichever's and with any way threatens against my own life, I am lawful and the lawfals never afraid, and the lawfals never afraid neither the day of liberation and if this day could be and the day who we live today would be the best for all the Mother Nature, the sooner is and the best.

The regimes and especially the nazi regimes as are their fourth nazi, illegal criminal, nazi criminal ways parasitizing from me, their echelon machines regime, must with no one negotiation from no one, totally to be defeated.

To remind to all the lawfals that in the past millions died fighting against the nazi criminals until to defeat them, we cannot betray the freedom fighters, we cannot betray the dead freedom fighters, we cannot betray the achievements of their fights, so no one step back the nazis criminals must totally to be defeated, the core of (of this time, and their last time their nazi kind will end, they are the lasts in history of their nazi kind) their nazi existence the their nazi, illegal, nazi criminally insane, harmful parasitic echelon machines basements and all their illegal, nazi criminal ways parasitizing from me, their echelon machines must completely and totally to be destroyed (will be the historically finally fight against the nazi criminals, this time the, "never again", will not be forgotten never, we have not right to forget never again, they must be and they will be, the lasts of their nazi criminal kind), the liberation day must come, no other choice exists, and the liberation day must be a clear win for the lawful forces, we the lawfals are the future and we cannot risk the future, and even we have losses of life's from the fight, we cannot make no one step back, the illegals, criminals and the nazis must with no one negotiation totally to be defeated, we cannot risk the future, from my part me, Dimitris Mantzanas, I do not afraid at all for my life, as always I am ready always if it will be needed to die with no one fear.

* This cover letter is consisted from (2) two pages text.
